**Attachments:** Sept 2021 EPA\_DOH regulatory alignment v08232021.pptx

Hi Lene and Peter,

It was nice talking with you both this afternoon.

Attached are some draft slides we might consider working through during our call on September 1. I've outlined a few slides on "Issues we need to reconcile in the course of this TUA Decision." These slides are draft and likely not complete/could be refined further, but I think these issues are sticking points worth discussing on September 1<sup>st</sup>. I will be vetting these issue during my meetings over the next few days internally here at EPA and they may change. I thought it would be helpful to share my thinking now in the interest of keeping our thinking progressing congruently.

My slide 2 lists the Sept 1 agenda topics as I understood them at the end of our call. I defer to Peter on how to best frame these topics and lead the meeting. This slide 2 is a place holder.

Lene- feel free to share with others and I welcome additions, refinements from the DOH team.
